

Coatings Division

About Torishima

Torishima Service Solutions Europe is an innovative engineering solutions provider with a wealth of experience in designing, manufacturing, assembling, installing and maintaining mechanical, hydraulic, cooling and lubrication systems. In addition we offer various aftermarket services such as the maintenance, repair and overhaul of a wide range of equipment and machinery.

Coatings

Our engineered coatings division is one of the leading providers of integrated surface preparation and specialised industrial coatings. We have a highly qualified team with proven experience in industries such as oil & gas, construction, rail & transport, food & beverage, and the water industry.

Based on your requirements we develop customised solutions by choosing the best techniques for -

- Removing existing coatings
- Preparing surfaces for inspection
- Coating reinstatement
- Recoating of a surface

Our London Road Facility

- 27,500 Sq. Ft facility
- Crane capacity of 20 tonnes
- 2 x Enclosed blast booths
- 1 x Large ventilated spray booth
- 1 x Heated Haltec spray booth
- 1 x RDM industrial gas oven
- 2 x Phosphate tanks
- Forklift capacity - 8, 5 and two 2 tonne forklifts
- NACE certified coating inspectors onsite

Typical Coating Applications

- Zinc & manganese phosphate
- PTFE & Dry Film Lubricants - Xylan & Everslik
- High build paint systems for subsea equipment
- Non-stick high temperature food grade coatings - Teflon & Xylan
- Hydrobaking
- Norsok M-501 Approved

Our Accreditations

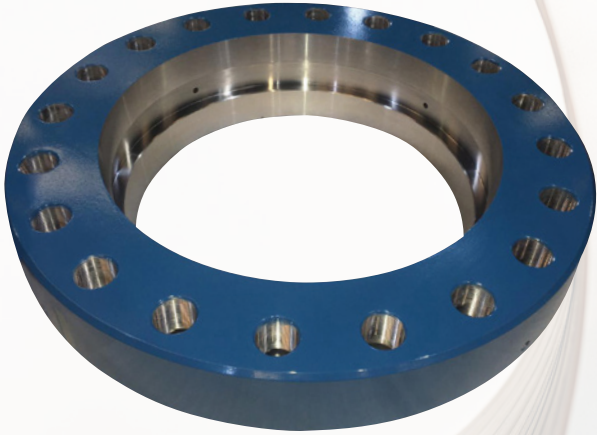

- Quality Management ISO 9001: 2015
- Environmental Management ISO 14001: 2015
- Health and Safety Management OHSAS 18001: 2007
- iCATS
- NACE International
- OPITO

Frame with 2 coat Epoxy

Subsea component with Zinc Phosphate, Everslik and 2 coat Epoxy

Subsea component with Xylan coating

Subsea component with Xylan coated external threads and 3 coat epoxy on main body
